Conklin Symetrik Collection

Another Conklin™ classic returns with the introduction of the new Symetrik™ collection. Originally introduced in 1929, the Symetrik™ was the first streamlined fountain pen design released by the Conklin Pen Co.™ A departure for Conklin™ during this time period, the Symetrik™ proved to be an instant success. The Symetrik™ is reintroduced in a stunning new collection based on the original 1929 design. Available in ballpoint, rollerball and fountain pen, each retains the vintage appeal of its 1920s predecessor. The fountain pen comes complete with a stainless steel nib engraved with the famous Conklin™ logo in either fine, medium, or broad nibs, and is cartridge or converter filled. The Symetrik™ Collection represents timeless elegance in a streamlined writing instrument. Now available in three new splendid cracked-ice vintage designs.
